If I where mayor I would make a School for kids that don't get daily education.

Anoter thing I would do is put recycleing bin be side every trash can that are out side of Shops. I would also put more local sport centers. Something else I would do is put more science musams in town. One last thing I would do is put in a tornado sake-button in every store in morgan town.

I would do this because if you where in

Somewhere like target® all you

would have to do is push a button

and you would be safe.

Sincerly,

Jenna
