Mr. Jeff Mikorski
City Manager
389 Spruce Street
Morgantown, West Virginia 26505

Dear Mr. Mikorski:

As you may be aware, the Commissioners once again discussed the Hartman Run Bridge during their meeting of May 8.

They have expressed some concern over the design, traffic pattern, interruption of essential services, among other subjects, when the demolition and reconstruction actually begins.

Besides the safety conditions, the cost has been the largest factor. Therefore, since the City is greatly affected by the replacement, the Commission is requesting Morgantown officials to consider financial assistance towards the project.

The bridge is an essential factor in the Sabraton area that actually affects traffic throughout other areas of the City. Your support and possible financial commitment for the replacement project will ensure a united community to the Department of Highways. We all need to emphasize the importance of this long awaited project.

The Commission is arranging for the immediate inspection of the bridge and has stated if it is determined the bridge is unsafe, they will close it without hesitation.

We look forward to hearing from you on behalf of the City of Morgantown.

Thank you.

For the Commission,
