Projects

Mrs. Zegre is a social scientist and educator with a background in public land management, natural resource policy and law, and asset-based community planning. She offers expertise in issues related to communities and natural resources, including: community visioning and planning, education and interpretation, outdoor recreation and tourism, social science research methods, environmental behavior, natural resource economics, and brownfields/ community development.

Education & interpretation

Outdoor recreation and tourism

- Lead instructor for the West Virginia University's Division of Forestry and Natural Resources class Managing Recreation, Parks, Tourism Organizations, an upper level undergraduate course for recreation, parks, and tourism resources students to learn elements of: strategic planning, legal foundations, coalition building, organizational structuring, personnel management, ethical behavior, financial management, communications, and marketing. (West Virginia University, Fall 2013).
- Lead instructor for the West Virginia University's Division of Forestry and Natural Resources class Social Research Methods in Natural Resource Management, an upper level undergraduate course for recreation, parks, and tourism management students to learn the methods, techniques, and application of social research related to natural resources (West Virginia University, Spring 2012).
- Served as a graduate teaching assistant in the following undergraduate classes: Wilderness Management (2006), Recreation Behavior and Management (2007), Nature-Based Tourism (2007), Recreation Resource Management (2008), Career Development (2008) (OSU, 2006-08).
- Designed and created various wilderness, river, and Leave No Trace education and interpretation materials, including handouts, maps, and bulletin boards, as well as an interpretation stylebook and hangtag (BLM, Grand Junction, Colo., Washington, D.C., 2002-04).
- Provided extensive hands-on training to local (Panamanian) commercial raft guides. Training included knowledge of safe rafting techniques, learning to read whitewater, rescue techniques, kayak and raft handling, food preparation and presentation, river conservation and interpretation, and relevant English words and phrases (Panama Rafters, Boquette, Panama, 2002).
- Provided education and interpretation to international whitewater rafting clients on two-to-three-week river trips through the Grand Canyon National Park. Topics included low-impact multiday river use, geology, ecology, human history, exotic invasive species, dam history and management, and water allocation history (O.A.R.S., Canyon Explorations, 1999-2001).
- Provided education and interpretation to youth group consisting of youth at risk and disabled youth on five-day river trips on the San Juan River, Utah. Topics included low-impact use, native and early explorer human history, geology, ecology, and exotic invasive plant species (Arizona Raft Adventures, 1999-2001).
- Educated river and wilderness users in Leave No Trace principles of outdoor ethics, as well as region-specific geology and ecology. Communicated public land management objectives and planning processes to the general public in wilderness and meeting settings (BLM, 1997-98; 2002-03).

Natural resources

- Lead instructor for the West Virginia University's Division of Forestry and Natural Resources class Human Dimensions of Natural Resource Management, a core course to expose upper division forestry and natural resource students to the social science theory and concepts, as well as the practical knowledge and skills needed to communicate with and engage stakeholders (West Virginia University, Fall 2011; Fall 2013).
- Developed presentation and worksheet for a future interagency national river database (Downstream Strategies 2012, for River Management Society).

- Developed marketing brochures for company in coordination with each lead (Downstream Strategies, 2012).
- Developed brochure for Tygart Valley Growers explaining the relevance of the Food Safety Modernization Act (Downstream Strategies, 2011, for Center for Economic Options).
- Assisted with development of “The Watershed Approach: Grassroots Environmental Management,” an online and field intensive, two-week college course (Downstream Strategies, 2011, for West Virginia University).
- Created education and outreach brochure for the Alderson Community Energy Plan (Downstream Strategies, 2011, for Town of Alderson, W.Va.).
- Created education and outreach brochure for the Pocahontas County Commission Water Resource Management Plan (Downstream Strategies, 2011, for Pocahontas County, W.Va.).
- Developed and delivered training Webinars on the functionality of and vision for the National BLM River Database (Downstream Strategies, 2011, for River Management Society).
- Developed and delivered training Webinars for the FOCUS WV Brownfields Assistance Program (Northern W.Va. Brownfields Assistance Center, 2009-2010, for the Claude Worthington Benedum Foundation).

Planning, policy, management, and logistics

- Director-in-training for the West Virginia University’s Division of Forestry and Natural Resources that organizes and hosts the annual Mid-Atlantic Wildfire Training Academy (West Virginia University, Summer 2013; *Director anticipated* 2014).
- Helped develop a new municipal separate storm sewer system (MS4) annual reporting form and MS4 in-lieu program guidance for the West Virginia Department of Environmental Protection (Downstream Strategies, 2011-present, for Center for Watershed Protection and W.Va. Department of Environmental Protection).
- Completed a river data inventory and database plan in coordination with the River Management Society for the National Park Service (Downstream Strategies, 2011-present, for River Management Society).
- Helped write a watershed-based plan for acid mine drainage-impaired Sandy Creek of the Tygart Valley Watershed to qualify it for 319 funds (Downstream Strategies, 2011-present, for Save the Tygart).
- Assisted with the comprehensive watershed plan for the New River, which included organizing stakeholder meetings, quantifying recreational use, and estimating future impacts (Downstream Strategies, 2010-11, for National Parks Conservation Association).
- Researched policies that promote or hinder the use of green infrastructure stormwater practices and worked with local government officials to implement green infrastructure (Downstream Strategies, 2010, for Region VI Planning and Development Council).
- Participated in asset-based community visioning and planning throughout northern West Virginia in leadership and contributing roles (Northern W.Va. Brownfields Assistance Center, 2009-10).
- Planned and organized the FOCUS WV Brownfields Showcase Event using the concept *Brownopoly* in the marketing, event, and breakout session (Northern W.Va. Brownfields Assistance Center, 2009-10).
- Served as a core team member for the planning, development, and creation of the BLM’s National Scenic and Historic Trails Strategy. In addition to writing, marketing, editing, and layout and design, responsibilities included planning and logistics for an event that served as a public participation process with various federal, state, tribal, local and non-profit trails stakeholders (BLM, Washington Office, 2005-06).
- Research assistant, boatman, and logistics coordination for pre-dam removal biotic inventory on the Rogue River, Savage Rapids Dam, Ore. (OSU, 2008, for US Geological Survey).
- Planner, organizer, fundraiser for Potomac River Festival in Washington, D.C. (Planning Team, 2005, 2006).
- Developed budgets, policy initiatives, regulations, and directives, as well as programmatic and technical support for the BLM’s national wild and scenic rivers and national scenic and historic trails programs (BLM, Washington, D.C., 2004-06).
- Participated in asset-based community visioning and planning per the NEPA process for the Colorado Canyons National Conservation Area, Colo. Responsibilities included describing the NEPA process to the general public, working with various stakeholder groups, collecting and incorporating filed office and public opinion data (BLM, 2002-03).

Project management and facilitation

Water resources

- Project manager and analyst for a multi-phase comprehensive watershed plan in the Elk River Headwaters, West Virginia. Responsibilities included meeting facilitation, public presentations, managing project resources, assigning and managing tasks, budgeting, and project development. Analysis activities include data development, interpretation, and dissemination (Downstream Strategies, 2010-present, for Elk Headwaters Watershed Association).
- Project lead for the Web-enabled National BLM River Database (BLM Washington Office and River Management Society, 2003-present).
- Project manager and meeting facilitator for Jefferson County Blue Ridge Community Area Plan's stakeholder visioning effort. Facilitated five community stakeholder meetings and creation of a common vision; co-authored engineering report, which includes recommendations and best management practices for steep slope development (Downstream Strategies, 2010, for Jefferson County Commission, W.Va.).

Community development

- Project manager and lead social scientist and author for a vision report for Preston County based on previously collected data; this vision report documents past visioning efforts and also serves as a tool for future planning and decision making (Downstream Strategies, 2010-11, for City of Kingwood, W.Va.).
- Project manager for the FOCUS WV Brownfields Program, a statewide private grant program to increase community capacity and spur community revitalization in West Virginia (W.Va. Water Research Institute, Northern W.Va. Brownfields Assistance Center, 2009-10, for the Claude Worthington Benedum Foundation).

Social science research

Communities and natural resources

- Interviewed West Virginia municipal separate storm sewer system (MS4) leadership to develop in-lieu program guidance for the West Virginia Department of Environmental Protection (Downstream Strategies, 2011-2012, for Center for Watershed Protection and W.Va. Department of Environmental Protection).
- Assisted with the stakeholder portion, methodology, and analysis of a project to develop and compute a valuation index for water resources in Appalachia for Appalachian Regional Commission, create an associated database and mapping system, and report on the potential economic impacts of asset-based development (Downstream Strategies, 2010-2011, for West Virginia University Research Corporation).
- Assessed economic benefits of acid mine drainage remediation efforts in the North Branch Potomac River watershed using surveys and interviews (Downstream Strategies, 2010, for Garrett County, Md.).
- Assisted with the design of various surveys and other public opinion measurements (W.Va. Water Research Institute, Northern W.Va. Brownfields Assistance Center, 2009-10).
- Lead researcher examining public impacts from concessionaires on public land. Responsibilities included conducting, transcribing, and analyzing semi-structured interviews with commercial guides and outfitters on the Tongass National Forest (OSU, 2008-09, for the USDA Forest Service, Pacific Northwest Research Station, Communities and Natural Resources).
