STAFF REPORT

CASE NO: COMBINED REPORT - CU13-15, V13-36, V13-49 thru V13-52
Sunnyside Properties, LLC / 300 Carson Street

REQUEST and LOCATION:

Request by William Morlino, on behalf of Sunnyside Properties, LLC, for the following approvals relating to a proposed personal storage facility at 300 Carson Street:

- Agenda Item A Case No. CU13-15 – “Personal Storage Facility” use in a B-2 District.
- Agenda Item B Case No. V13-36 – Variance relief as it relates to setbacks.
- Agenda Item C Case No. V13-49 – Variance relief as it relates to design and performance standards.
- Agenda Item D Case No. V13-50 – Variance relief as it relates to transparency.
- Agenda Item E Case No. V13-51 – Variance relief as it relates to minimum parking requirements.
- Agenda Item F Case No. V13-52 – Variance relief as it relates to minimum building height.

TAX MAP NUMBER(s) and ZONING DESCRIPTION:

Tax Map 20, Parcel 148; B-2, Service Business District and South Sunnyside Overlay District

SURROUNDING ZONING:

- North, South, and West:.....R-3, Multi-family Residential District and South Sunnyside Overlay District
- East:B-2, Service Business District and South Sunnyside Overlay District

BACKGROUND and ANALYSIS:

On 16-Jul-2008, the petitioner obtained variance approval under Case No. V08-32 to develop a surface parking lot on the subject site where two public rights-of-way intersect and conditional use approval under Case No. CU08-11 to establish a “Commercial Parking Lot” use in the R-3 District.

On 01-May-2012, City Council enacted a Zoning Map Amendment under Case No. RZ12-01 reclassifying the subject realty from R-3, Multi-Family Residential District to B-2, Service Business District.

Addendum A of this report illustrates the location of the subject site.

Leanne Cardoso, Vice-Chair
George Papandreas
Jim Shaffer
Tom Shamberger

The petitioner seeks to construct a garage/storage structure on Parcel 148 utilizing the existing foundation walls of a former nonconforming structure that was razed and removed several years ago. The proposed structure is 30 feet X 27.75 feet or 832.5 square feet in area.

It should be noted that the subject 40' X 40', 1,600 square foot tract of realty is considered a nonconforming parcel as it does not comply with minimum lot area (6,000), minimum lot frontage (60 feet), or minimum lot depth (100 feet) standards for the B-2 District. The parcel's front is along Carson Street.

The following narrative describes each of the conditional use and variance cases presented herein.

Agenda Item A..... Case No. CU13-15

The proposed garage storage building use does not appear to be included as a permitted principal land use in Table 1331.05.01 as such structures are generally characterized as accessory structures/uses to another principal structure/use.

Article 1357.05 provides administrative interpretation authority when specific proposed land uses do not clearly fall within land use categories listed as either permitted or conditional uses and/or do not clearly fall within the common meaning of any of the land uses listed in Table 1331.05.01 and defined in Article 1329.02.

The proposed use appears to be substantially similar to a "Personal Storage Facility or Self-Service Storage Facility" use, which is defined in Article 1329.02 as:

"A building or group of buildings consisting of individual self-contained units leased to individuals, organizations, or businesses for self-service storage of personal property."

"Personal Storage Facility" uses are permitted in the B-2 District with conditional use approval by the BZA. Article 1375.05(E)(4) provides that:

"If the proposed use is most similar to a use allowed only as a conditional use in the district in which it is proposed to be located, then any use interpretation authorizing such use shall be subject to the issuance of a conditional use permit..."

As such, conditional use approval is required to develop the proposed garage storage structure.

Agenda Item B..... Case No. V13-36

The following table identifies related lot coverage and setback requirements for the proposed garage storage structure and notes requisite variances in bold font highlighted in yellow.

Code Citation	Provision	Standard	Proposed	Requisite Variance	Comment
B-2 District					
1347.03(D)	Min. Lot Coverage	60%	52%	N/A	Standard superseded by Overlay District.
1347.04(A)(1)	Min. Front Setback	15 feet	8 feet	N/A	Standard superseded by Overlay District.
1347.04(A)(2)	Max. Front Setback	30 feet	8 feet	N/A	Standard superseded by Overlay District.
1347.04(A)(3)	Min. Side Setback (west)	5 feet	7 feet	None	None.
1347.04(A)(3)	Min. Side Setback (east)	20 feet	3.25 feet	16.75 feet	None.
1347.04(A)(4)	Min. Rear Setback	40 feet	2 feet	N/A	Standard superseded by Overlay District.
South Sunnyside Overlay District					
1361.03(A)	Min. Front Setback	5 feet	8 feet	None	None.
1361.03(A)	Max. Front Setback	15 feet	8 feet	None	None.
1361.04(A)(3)	Min. Rear Setback	20 feet	2 feet	18 feet	None.
1361.04(A)(4)	Max. Lot Coverage	70%	52%	None	None.

As the table above illustrates, variance relief of 16.75 feet from the minimum side (east) setback standard and 18 feet from the minimum rear setback standard is required for the development as proposed.

Agenda Item C..... Case No. V13-49

Article 1361.03(P)(1) provides that the first two (2) floors of a building must be constructed of natural materials including stone, brick, and wood siding, but not including materials such as, or similar to, wood roof shingles, reflective glass, split-faced concrete block, imitation stone, and imitation stucco or Drivit.

Because the proposed development program includes the use of split-faced concrete block, variance relief is required. It should be noted the petitioner has stated that wood

George Papandreas
Jim Shaffer
Tom Shamberger

siding will be used rather than the reference to brick illustrated on the submitted renderings.

Agenda Item D..... Case No. V13-50

Article 1361.03(E) provides that building facades adjacent to public streets must have at least 60% ground floor transparency. Because no windows are provided in the proposed development along Carson Street or Grant Avenue, variance relief is required.

Agenda Item E..... Case No. V13-51

Article 1347.06 and Table 1365.04.01 provides the following minimum parking requirement for Personal Storage Facility or Self-Service Storage Facility” uses:

3 spaces plus 1 space per 100 units

Although Article 1361.03(Q)(2) permits on-street parking spaces immediately adjacent to a land use to count towards fulfilling minimum parking requirements, the subject’s frontage along Carson Street and Grant Avenue is striped yellow and on-street parking is not permitted.

Because the proposed site plan does not include on-site parking, variance relief from the minimum parking requirement is required.

Agenda Item F Case No. V13-52

Article 1361.03(O)(5) provides a minimum building height of two (2) stories along secondary streets in the Sunnyside Overlay Districts. Because the proposed building height is one (1) story, variance relief is required.

Staff recommends that the Board, without objection from members of the Board, the petitioner, or the public, combine the public hearings for one (1) conditional use and five (5) variance petitions presented herein. However, each respective conditional use and variance petition must be considered and acted upon by the Board separately.

STAFF RECOMMENDATION:

The Board of Zoning Appeals must determine whether the proposed request meets the standard criteria for a conditional use or variance by reaching a positive determination for *each* of the respective “Findings of Fact” submitted by the applicant. Addendum B of this report provides Staff recommended findings of fact.

Again, each respective conditional use and variance petitions must be considered and acted upon by the Board separately.

Staff recommends that the following conditions be included in the approvals for each petition.

Jim Shaffer
Tom Shamberger

Agenda Item A..... Case No. CU13-15
“Personal Storage Facility” use in a B-2 District.

Recommended conditions:

1. That shiny metal roofing or unfinished metal roofing may not be used.
2. That, if the subject building includes a metal roof, it must be finished in a neutral, earth-tone color that does not unduly call attention to the building. Examples of colors that may not be used are orange, red, yellow, and white.

Note: These design standards are provided in Article 1331.06(15) for “Self Storage and Personal Storage Facility” uses.

Agenda Item B..... Case No. V13-36
Variance relief as it relates to setbacks.

No conditions recommended.

Agenda Item C..... Case No. V13-49
Variance relief as it relates to design and performance standards.

To see the spirit and intent of the Sunnyside Overlay Districts’ design and performance standards relative to building materials are observed and substantial justice done, Staff recommends the following conditions:

1. That wood siding, if used, shall be horizontally articulated clapboard, lap, or similar design and not a vertically articulated design often resembled in board-and-batten or T-111 type siding.
2. That wood siding, if used, shall be treated, painted, and/or stained for resistance to outdoor, severe weather.
3. That the color of the split-faced block shall be comparable and complementary to the color (e.g., limestone color, sandstone color, etc.) of the existing cut foundation stone located on the subject site and proposed for use as a portion of the subject building’s foundation. The color of the split-faced block may not be concrete grey, white, red or similar contrasting color.
4. That cement fiberboard siding replicating horizontally articulated wood clapboard, lap, or similarly designed siding may be used; provided, it is comprised of a simulated wood grain profile.

Agenda Item D..... Case No. V13-50
Variance relief as it relates to transparency.

To see that the spirit and intent of the Sunnyside Overlay Districts’ design and performance standards relative to fenestration are observed and substantial justice done, Staff recommends the following condition:

1. That, to soften the plain wall of the subject building that will face Grant Avenue given the absence of windows as required, landscaping of arborvitae, upright yew, or similarly appropriate vertically growing evergreen shrubs must be planted as generally illustrated in the following graphic.

STAFF REPORT ADDENDUM A

CU13-15, V13-36, V13-49 thru V13-52 / Sunnyside Properties, LLC /
300 Carson Street

STAFF REPORT ADDENDUM B
CU13-15, V13-36, V13-49 thru V13-52 / Sunnyside Properties, LLC /
300 Carson Street

Staff recommended revisions to petitioner's Findings of Fact (deleted matter struck through; new matter underlined).

CU13-15 "Personal Storage Facility"

Finding of Fact No. 1 – Congestion in the streets is not increased, in that:

Structure to be used as storage. Maximum vehicle use ~~shall~~ should be limited to one vehicle at any given time.

Finding of Fact No. 2 – Safety from fire, panic, and other danger is not jeopardized, in that:

Very limited use of structure. The building will comply with all related building and fire codes.

Finding of Fact No. 3 – Provision of adequate light and air is not disturbed, in that:

The proposed building will be a one story structure on existing foundation with much of the building below adjoining grades, which should not adversely affect existing light distribution and air flow patterns.

Finding of Fact No. 4 – Overcrowding of land does not result, in that:

Will occupy only 52% of existing lot.

Finding of Fact No. 5 – Undue congestion of population is not created, in that:

No person will be living in the structure.

Finding of Fact No. 6 – Granting this request will not create inadequate provision of transportation, water, sewage, schools, parks, or other public requirements, in that:

~~Storage structure will have minimal use of any of the above.~~ The proposed one-story storage structure will not require additional public services or facilities that are not presently available to the site or the general facility.

Finding of Fact No. 7 – Value of buildings will be conserved, in that:

The storage structure will be built with compatible materials. The proposed building should serve to improve the site and surrounding area and mitigate graffiti and debris.

Finding of Fact No. 8 – The most appropriate use of land is encouraged, in that:

~~Storage structure will be a use of the land that is not now used.~~ The proposed building and use should serve to improve a nonconforming parcel that is currently vacant, underutilized, and otherwise a noncontributing small tract of land.

V13-36 Setbacks and Encroachments

Finding of Fact No. 1 – There are exceptional or extraordinary circumstances or conditions applicable to this property or to the intended use, that generally do not apply to other properties or uses in the same vicinity, because:

The proposed development will use the existing foundation of a formally razed and removed nonconforming residential structure.

Finding of Fact No. 2 – The variance is necessary for the preservation and enjoyment of a substantial property right that is possessed by other properties in the same vicinity and zoning district, but which denied to this property, because:

Developing the subject 40X40 lot, given minimum setback requirements, could not be built upon.

Finding of Fact No. 3 – The granting of this variance not be harmful to the public welfare and will not harm property or improvements in the vicinity and zoning district in which the subject property is located, because:

~~No garage only.~~ Allowing the setback encroachment will permit the development of a small parcel that is currently vacant, underutilized, and otherwise considered a noncontributing small tract of land.

Finding of Fact No. 4 – The granting of this variance not alter the land-use characteristics of the vicinity and zoning district, or diminish the market value of adjacent properties, or increase traffic congestion on public streets, because:

~~Will meet all city codes.~~ The proposed building and use should serve to improve a nonconforming parcel that is currently vacant, underutilized, and otherwise a noncontributing small tract of land. The nature of the variance cannot contribute to or diminish existing traffic congestion within the immediate area.

V13-49 Design and Performance Standards

Finding of Fact No. 1 – There are exceptional or extraordinary circumstances or conditions applicable to this property or to the intended use, that generally do not apply to other properties or uses in the same vicinity, because:

With the exception of cost-prohibitive cut natural stone, split faced block will match the existing stone walls better than other materials.

Finding of Fact No. 2 – The variance is necessary for the preservation and enjoyment of a substantial property right that is possessed by other properties in the same vicinity and zoning district, but which denied to this property, because:

Structure could not be built otherwise. Similar variances have been granted in the Sunnyside Overlay Districts.

Finding of Fact No. 3 – The granting of this variance not be harmful to the public welfare and will not harm property or improvements in the vicinity and zoning district in which the subject property is located, because:

Garage only. The use of split-faced type block should not adversely impact the built environment within the immediate area as similar appearing hardscape materials were used to create a retaining wall surrounding the bus stop developed under the Sunnyside Up Grant Avenue streetscape project at the nearby corner of Grant Avenue and First Street.

Finding of Fact No. 4 – The granting of this variance not alter the land-use characteristics of the vicinity and zoning district, or diminish the market value of adjacent properties, or increase traffic congestion on public streets, because:

Will meet all city codes. Conditions required by the Board should see that the spirit and intent of the Sunnyside Overlay Districts' design and performance standards relative to building materials are observed and substantial justice done thereby mitigating adverse impacts to the immediate built environment. The nature of the variance cannot contribute to or diminish existing traffic congestion within the immediate area.

V13-50 Transparency

Finding of Fact No. 1 – There are exceptional or extraordinary circumstances or conditions applicable to this property or to the intended use, that generally do not apply to other properties or uses in the same vicinity, because:

Security appears prevailing is of paramount importance given the proposed use and structure.

Finding of Fact No. 2 – The variance is necessary for the preservation and enjoyment of a substantial property right that is possessed by other properties in the same vicinity and zoning district, but which denied to this property, because:

Structure could not be built otherwise. Although variance relief to the minimum window/fenestration standards in the Sunnyside Overlay Districts has been approved by the Board, the circumstances of the site in terms of topography and use of existing foundation walls along with the proposed use and proposed structure appears unique warranting relief as requested.

Finding of Fact No. 3 – The granting of this variance not be harmful to the public welfare and will not harm property or improvements in the vicinity and zoning district in which the subject property is located, because:

Garage only. The nature of the variance, given the proposed use and proposed structure, should not adversely impact the neighboring built environment.

Finding of Fact No. 4 – The granting of this variance not alter the land-use characteristics of the vicinity and zoning district, or diminish the market value of adjacent properties, or increase traffic congestion on public streets, because:

Will meet all city codes. Conditions required by the Board should see that the spirit and intent of the Sunnyside Overlay Districts' design and performance standards are observed and substantial justice done thereby mitigating adverse impacts to the immediate built environment by requiring landscaping to soften the plain wall of the subject building that will face Grant Avenue. The nature of the variance cannot contribute to or diminish existing traffic congestion within the immediate area.

V13-51 Minimum Parking Requirements

Finding of Fact No. 1 – There are exceptional or extraordinary circumstances or conditions applicable to this property or to the intended use, that generally do not apply to other properties or uses in the same vicinity, because:

Any vehicle used will be parked inside of the structure. Additionally, the proposed structure, given the personal use of the storage building by the petitioner, will not function as a self-storage facility where related minimum parking requirements appear more suitable for customers.

Finding of Fact No. 2 – The variance is necessary for the preservation and enjoyment of a substantial property right that is possessed by other properties in the same vicinity and zoning district, but which denied to this property, because:

Structure could not be built otherwise. Developing the subject 40X40 lot, given minimum parking requirements, does not appear otherwise likely.

Finding of Fact No. 3 – The granting of this variance not be harmful to the public welfare and will not harm property or improvements in the vicinity and zoning district in which the subject property is located, because:

Garage only. The proposed structure will be for the personal use of the petitioner and maximum vehicle use should be limited to one vehicle at any given time.

Finding of Fact No. 4 – The granting of this variance not alter the land-use characteristics of the vicinity and zoning district, or diminish the market value of adjacent properties, or increase traffic congestion on public streets, because:

Will meet all city codes. The proposed building and use should serve to improve a nonconforming parcel that is currently vacant, underutilized, and otherwise a noncontributing small tract of land. The nature of the variance, given the personal use of the proposed structure by the petitioner, should not contribute to or diminish existing traffic congestion within the immediate area.

V13-52 Minimum Building Height

Finding of Fact No. 1 – There are exceptional or extraordinary circumstances or conditions applicable to this property or to the intended use, that generally do not apply to other properties or uses in the same vicinity, because:

Facility is to be used for storage. Any additional height would be wasted space and expense.

Finding of Fact No. 2 – The variance is necessary for the preservation and enjoyment of a substantial property right that is possessed by other properties in the same vicinity and zoning district, but which denied to this property, because:

Structure could not be built otherwise. Developing the subject 40X40 lot, given minimum parking and other related development intensity requirements, does not appear otherwise likely.

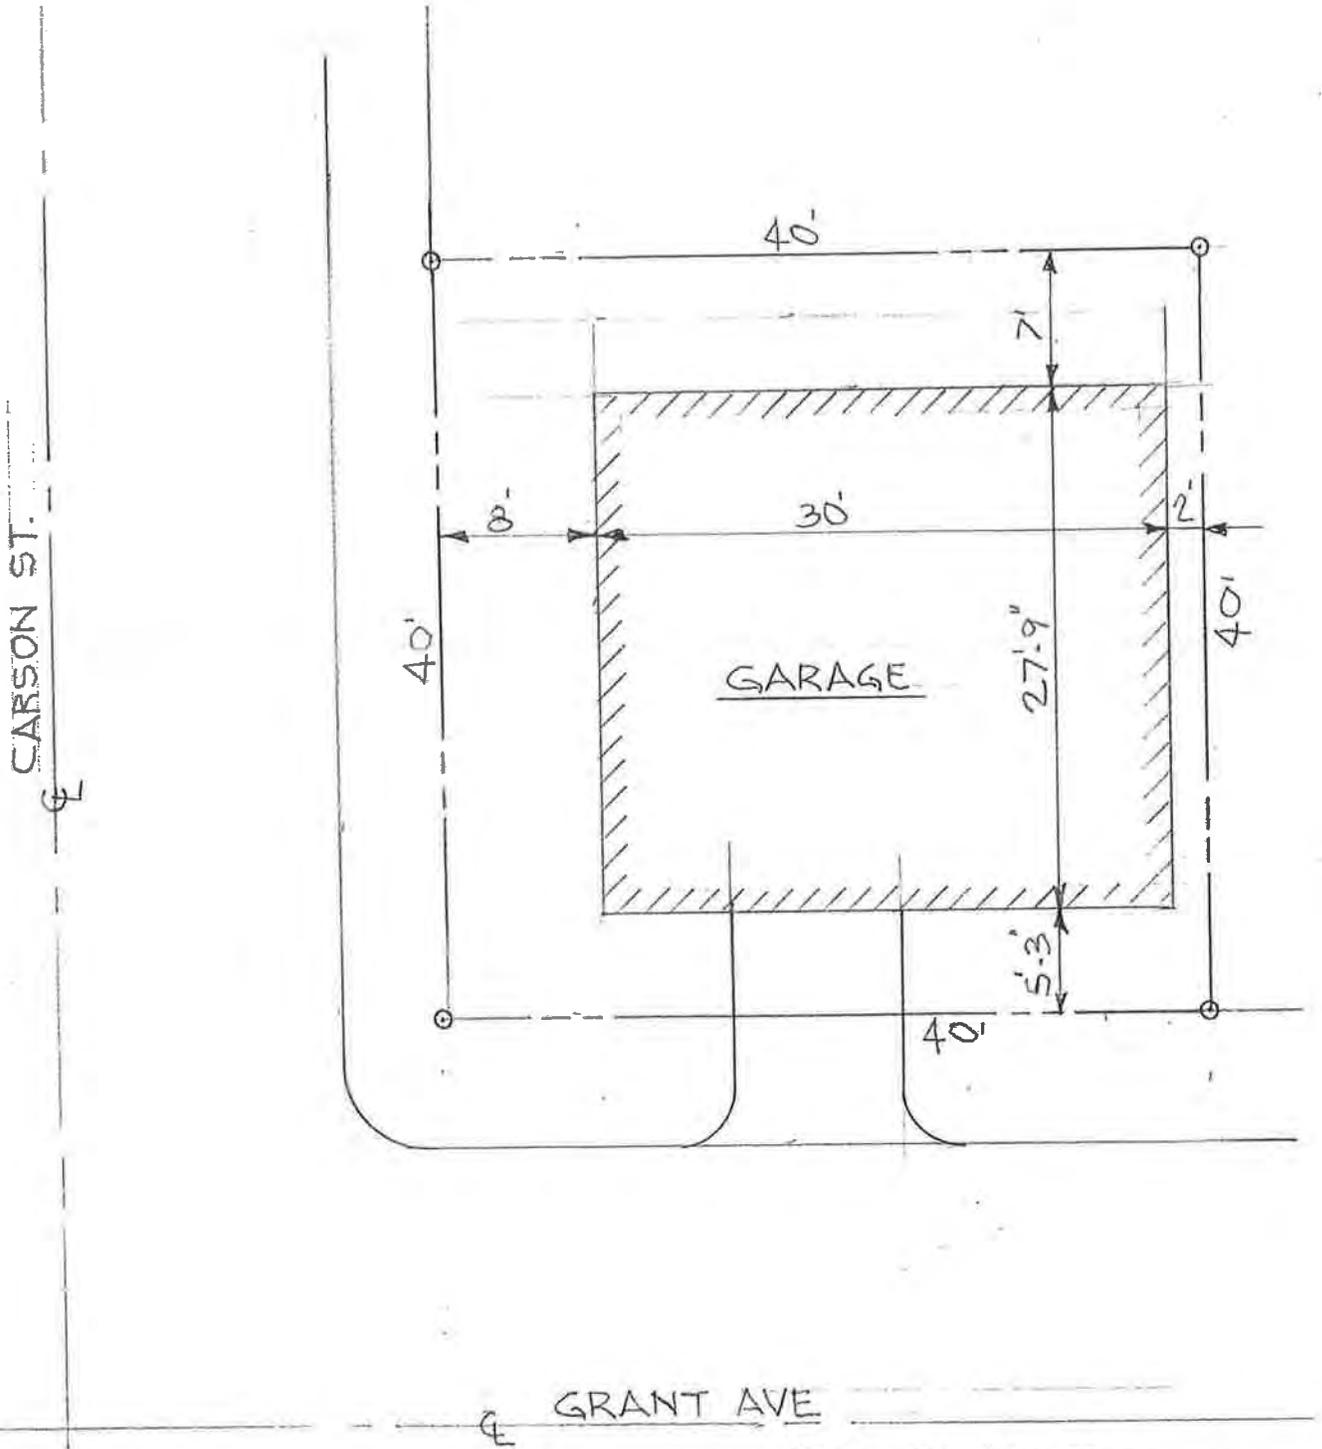

Finding of Fact No. 3 – The granting of this variance not be harmful to the public welfare and will not harm property or improvements in the vicinity and zoning district in which the subject property is located, because:

Garage only. The nature of the variance, given the proposed use and proposed structure, should not adversely impact the neighboring built environment.

Finding of Fact No. 4 – The granting of this variance not alter the land-use characteristics of the vicinity and zoning district, or diminish the market value of adjacent properties, or increase traffic congestion on public streets, because:

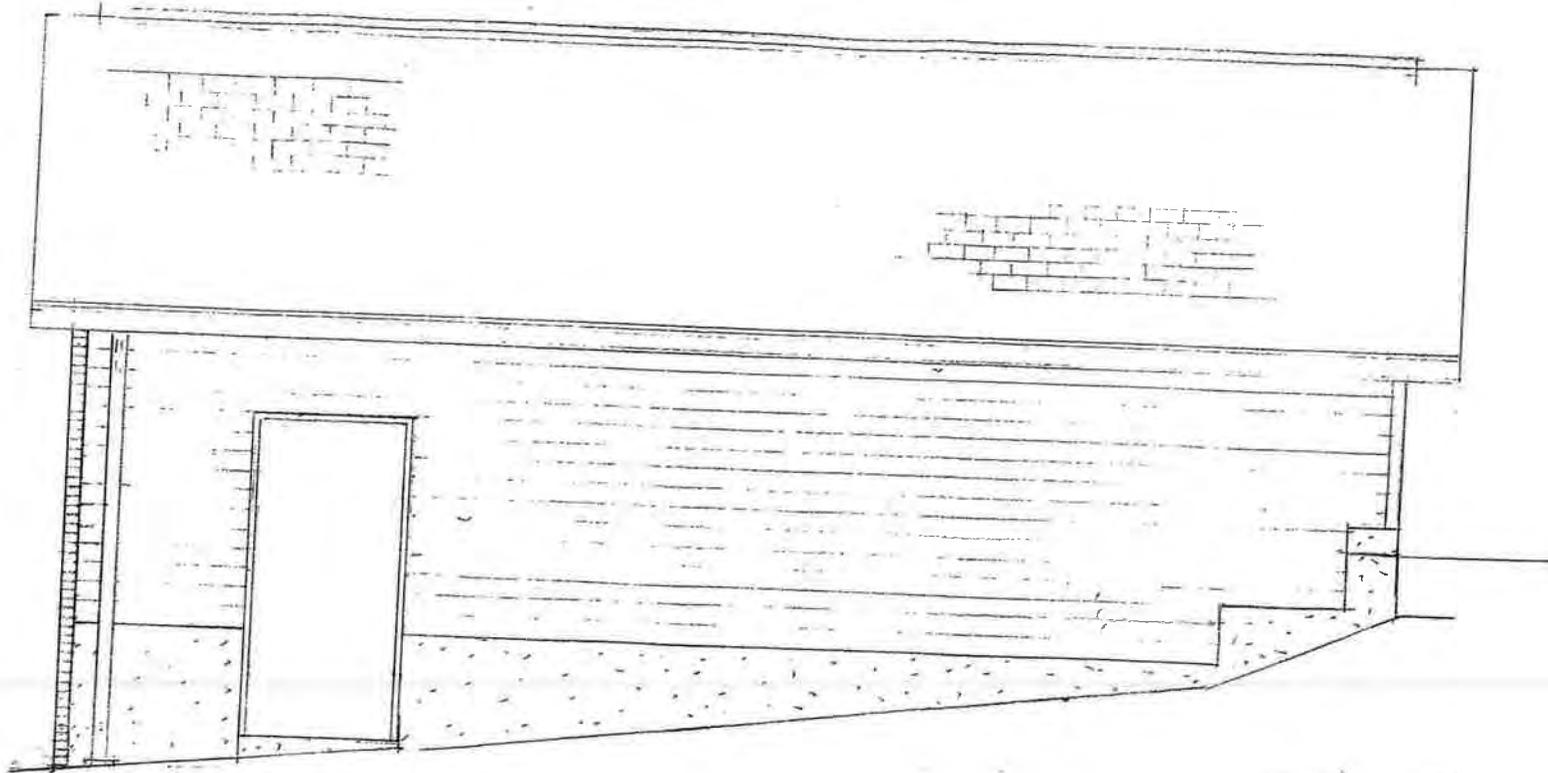

~~Will meet all city codes.~~ The proposed building and use should serve to improve a nonconforming parcel that is currently vacant, underutilized, and otherwise a noncontributing small tract of land. The nature of the variance cannot contribute to or diminish existing traffic congestion within the immediate area.

VII. SUPPLEMENTAL PLANS AND EXHIBITS

Applicants **MUST** also submit the following plans and exhibits, unless waived by the Planning Director:

- (a) Drainage plan and drainage calculations that bear the name, address, signature and seal of a registered professional engineer licensed by the State of West Virginia, with floodplain zones clearly denoted, a typical of all swales, and a design of the drop inlets.
- (b) If applicable, design of stormwater management facilities and drainage calculations that bear the name, address, and seal of a registered professional engineer licensed by the State of West Virginia that meet the requirements of the City Zoning Ordinance, the City Stormwater Management Ordinance, and all other applicable local, state and federal regulations.
- (c) Parking and Landscaping Plan
- (d) Sign Plan
- (e) Approved WV Division of Highways Access Permit, if applicable
- (f) Sediment and erosion control plan as approved by the West Virginia Department of Environment Protection and the City of Morgantown
- (g) Approved State of West Virginia NPDES General Permit for Storm Water Associated with Industrial (Construction) Activity, if applicable
- (h) A traffic impact study, if required by the City Engineer
- (i) The Planning Director may require the applicant to submit additional information concerning the lot or neighboring lots to determine conformance with, and provide for the enforcement of, the City Zoning Ordinance.
- (j) The Planning Director may require the applicant to submit, in the case of accessory structures or minor additions, dimensions shown on plans relating to the size of the lot and the location of the structure(s) thereon be based on an actual survey prepared a registered design professional licensed by the State of West Virginia.

Applicants submitting a conditional use application in accordance with Article 313.05 "Building Height and Use" within the B-4 General Business District **MUST** also submit the following analyses:

- (a) An air flow analysis conducted by a licensed architect or profession engineer, describing the estimated impact of the proposed building on existing patterns of air flow in the general vicinity; and how those impacts may affect existing properties with a 300 foot radius of the site.
- (b) An analysis of the impacts of the proposed building on sunlight distribution in the general vicinity, with special emphasis on predicting light blockage and shadow casting onto all properties with a 300 foot radius of the site. Such analysis shall be conducted by a licensed architect or professional engineer.
- (c) An analysis of the potential of "stepping back" upper floors as a technique to avoid negative impacts with respect to light and airflow, and to minimize the canyon effect of non-recess tall buildings. Such analysis shall be conducted by a licensed architect or professional engineer.
- (d) An infrastructure and traffic analysis predicting the impacts of the building on water, sewer, drainage, electrical and gas infrastructure, on transportation levels of service (including transit) for impacted streets, and on fire suppression capabilities of the city. Such analysis shall be conducted by a licensed architect or professional engineer.

VIII. FINDINGS OF FACT

The Board of Zoning Appeals may grant the request only if each of the Conditional Use Findings of Fact Criteria is determined to be in the positive. Applicants must give their own responses to the criteria statements provided below.

This Conditional Use is within the fitting character of the surrounding area and is consistent with the spirit, purpose, and intent of the Zoning Ordinance, *because,*

1. Congestion in the streets is not increased, in that:

Structure to be used AS STORAGE. MAX Vehicle Use shall be 1 Vehicle

2. Safety from fire, panic, and other danger is not jeopardized, in that:

Very Limited Use of Structure

3. Provision of adequate light and air is not disturbed, in that:

One STORY STRUCTURE on existing foundation

4. Overcrowding of land does not result, in that:

Will occupy only 52% of existing lot

5. Undue congestion of population is not created, in that:

No person will be living in The Structure

VI. SUPPLEMENTAL INFORMATION

Depending on the type of variance request and the scale and scope of the development proposal, supplemental information may be needed to assist the Board of Zoning Appeals in rendering a variance decision. Staff will check the appropriate boxes below that must be addressed.

- Land Use Characteristics (complete only those that apply)
 - Residential Single-Family Dwelling Townhouse Dwelling
 - Two-Family Dwelling Multi-Family Dwelling
 - Non-Residential or Mixed (please explain)

B-2 zone

- Structure Characteristics (complete only those that apply)

Total number of buildings: 1 Gross floor area of each building: 837.59 ft

Estimated number of employees: 1 No. of dwelling units: 0 No. of bedrooms: 0

Additional structure-related details:

- Additional Information (as required by Staff):

- Site Plan A scaled site plan may be required to assist the Board in rendering a variance decision. The following features must be represented, as required by Staff.
 - Location, shape, exterior dimensions, and number of stories of each building on the site.
 - Standard yard setbacks for the applicable zoning district
 - Location, grade, and dimensions of paved surfaces, and all abutting streets
 - Existing and proposed contours, at an interval of at least two (2) feet
 - Complete traffic circulation plan showing dimensions, entrance/exit drives, planters, and similar improvements
 - Location of landscaped areas (to be detailed on landscape plan), fences, walls, and other screen required

For simple variance requests (as determined by Staff), please use the graph area on the following page to illustrate applicable features listed above.
