

If I Were Mayor.....

If I were mayor, I would make in the town was safe. I build schools that are safe for children and have great employees. For the unfortunate, I would build a building where they can go and eat food. They would also be able to spend nights. Of course all of that would be free! As a mayor I would buy ambulances and fire trucks. I would hold events and fundraisers for the town. Of course it wouldn't be a town without houses! I would build houses in neighborhoods, sub divisions, apartments, and just alone. Then, I would build hospitals, colleges, and plazas. To make sure the town stays friendly and green, I would make an app for only people in the town to talk to each other. It will analyze what you typed to the person and if it was nice it would send. I would also hire mowers. There would be a town center where you could visit. It would have a playground, a store, and a coffee shop. That's what I would do if I were mayor.
