

## If I were mayor

If I were mayor I would make taxes able to be paid, make schools do the right thing, and change places or things that are wrong.

I would make sure taxes are not too high. I would forgive someone if they did not pay their tax on time, and they would get 8 weeks to pay that tax.

I would make sure schools had no cussing or hurting other students. Also there should be responsible teachers. I would reward that school for all that good behavior. My reward would be some money for things that school might need like notebooks, pencils, and books for the classroom.

I think some places are wrong like the Blue Parrot. I think it is bad because it has words on its sign that kids should not know. Smoker Friendly is also bad because the smoke from the cigarettes can hurt your gums and lungs. Spray paint is also bad. It can ruin someone's election sign. When people spray paint a sign or building they are ruining personal property. Which is mean and is breaking the law.

I would do all these things if I were mayor!
