

If I was Mayor of Morgantown.

If I were Mayor of Morgantown I would make it wonderful.

I would add some more features to help the whole town. The roads will have more signs and make driving safer. More recycling bins and trash.

Cigarettes would be banned from

all areas of the town.

in long lines must turn off their car. Doing this will help people's health.

More schools need to be built.

Teachers should get paid more.

More schools should recycle and pick up trash. The should be a bit shorter. Schools should do more fun activities.

Rivers should be cleaned more often. Cut down less trees for paper.

The grass should be mowed and taken care of. All streets and other little roads should be paved. This would help the environment.

Last of all kids and students should be more hands on. Students should do more experiments. More field trips and exploring. There's a whole world of possibilities out there to be explored. This will help students have a better life.

Following all this will help a lot.

It's good for students, health, and  
much more. All of this will make more  
success to Morgantow WV.
