Dear Mr. Mayor,

If I were mayor I would donate some money to schools for education so kids will be smart. Next I would help people get jobs and buildings for them to work in. Then I will go green and persuade people to go green too. Afterwards, I would go to a meeting to discuss complaints that the town had and try to fix them. But what I would want to fix most is security on important stuff. If people's things don't have security it could be stolen and some people don't care about other people's priceless items. Even though it's not my problem I want to help them with their problem to be a great mayor. I think I know what your thinking like it is not your problem ,but it is because maybe they need more money. You just can't fix it so you should donate money to a shelter at the least. finally ,if I were mayor I would help people with their needs. If I were mayor that is what I would do.

sincerely, Wesley
